"I Really could not have hoped for a more wonderful introduction to both archaeology and Spain itself! I enjoyed every moment, from swimming in the pool to taking the wheel barrow to our excursions to other towns." -Celeste McIlwaine, UK.

The Roman Fortress Pulpon Field School is a hands-on experience in excavation and laboratory at a unique Roman site in the heart of Spain. It is a deep immersion in field archaeology, Roman history and Spanish culture. Where students will contribute to the research that aims to piece together the story of how Roman culture developed across the Iberian Peninsula.

While working as field crew along professional archaeologists You will be learning the methods and techniques of an archaeological

ArchaeoSpain High school programs celebrate its 18th anniversary in 2021. We are very proud to have some of our former students among our colleagues, in and out AS team. The excavation will be focused on the investigation of a massive building that could have served as a military garrison, as a horreum or as a place to store lapis specularis, the first crystal known to be used in windows (Plinius. Nat. Hist. XXXVI, 161). In 2021 the investigation will be focused on the eastern side of the building, its main entrance at the south and in the center.
